AWARDS

Career's Meritorious Student
UNAPEC
November 2018

WORK EXPERIENCE

Soluciones GBH
Mid Software Engineer
(September 2021 - February 2022)

Worked on many projects both internal and external, like Remax RD real estate mobile app (React Native), MDCalc medical calculator (React Native), Thynkads grocery store ads management system (Express and React), and a rewards-based game-like mobile application (React Native) and it's admin system (Laravel and React).

Soluciones GBH
Junior Software Engineer
(August 2020 - August 2021)

Worked with Denmark-based client Line Studio on various applications in the area of healthcare, both for people and animals, like veterinarian systems such as PIMS and laboratory providers, and systems that ingest data from devices such as the FreeStyle Libre and similar. Used many technologies such as Node, React, Express, Fastify, Nest.js, Electron, Docker, Kubernetes, AWS, and others

EDUCATION
